

Listening comprehension

PIL And Approach, just to **make sure** that ... do you guys ... have the information about ... that we are going to need ... **paramedics** once we land?

CTL Spirit 779, affirmative, we are going to have **paramedics standing by**, do you know if it's **female** or **male** flight attendant that's needing **assistance**?

PIL I believe it's a **female**, but I can **double-check**. But I know, so they just told me, there are also like two passengers starting ... **getting sick**.

CTL OK, just let me know of the sex of the passengers when able, that we will have the **emergency personnel** more informed, and they'll be able to **meet you** at the gate, is that where you want them, or do you want them to get the people off the taxiway?

PIL No, at that gate ... at the gate ... we'll just **taxi straight** to the gate.

PIL Spirit 779, it's a **female** flight attendant **getting oxygen** and actually they just informed me that there is another passenger **getting oxygen**.

CTL Ok, thanks very much, and we'll have everybody **standing by** for you.

PIL Thank you

...

Rescue Myrtle Beach tower, Rescue 10

CTL Rescue 2, Rescue 10, all **rescue vehicles**, it's ... it's more of a **medical emergency**, they've got three ... three passengers that need **assistance**, so they do not need you standing by the runway. Thank you, **though**.

...

Rescue Myrtle Beach tower, Rescue 10, do we know the **nature** of the medical call?

CTL Rescue 10, I am trying to **get a hold of** airport ops as well, they are reporting a **chemical smell**, it's a woman flight attendant ... **headaches** and **nauseous**, and two **elderly** passengers as well.

...

Rescue Myrtle Beach tower, Rescue 10, after that pilot gets on the ground, I do not want him to go to a **jetway**, I'd like him to **hold off** on the taxiway and then I can talk to him, make sure what kind of **chemical smell** we do have on that plane.

CTL Rescue 10, roger.

...

CTL Spirit Wings 779, after landing the **rescue vehicle** is requesting you hold on the taxiway to **verify** what kind of **chemical smell**, do you know what **chemical smell** it is? He is **monitoring** this frequency now.

PIL ... We don't know ... it smells kind like ... **dirty sock smell**, something like that?

CTL And where it's **coming from**, what **area** of the plane?

PIL It's in the **cabin**, it could be maybe from the back, from the **air conditioning**, ... well, we really don't know.

CTL Roger.

...

PIL Just to **confirm**, after landing, do you guys just want us to stay on the runway or just **clear the runway** and wait?

CTL Spirit Wings 779, you can **exit** the runway after landing, and you are **cleared to land** runway 1-8.

...

CTL Spirit Wings 779, left turn on Alpha, just **pull off** in the ramp, they are going to **pull** some **airstairs** up to you, they don't want you to **hook up** to the gate.

...

CTL Rescue 10 do you know the **status** of the 3 **individuals**? Did any of them have to go to the hospital?
